About US

Kaveri Plasto Containers Pvt. Ltd. Manufacturer, Supplier & Exporter of Brand KAVERI Plastic Water Storage Tanks and other Rotational/Blow Molded products.

Our Aim

The company was started with an aim to manufacture and sell quality plastic water storage tanks in various capacities ranging from 200 ltrs to 20,000 ltrs.

An ISO 9001:2015 certified & ISI mark license (In range of 200 to 6,000 Ltrs. & 10,000 Ltrs.)

Wide range of products with wide application

We have a wide range of products ranging from commercial tanks - Double Layer, Triple Layer, Four Layer, House Hold drums, Loft tanks, Sump tanks, Chemical containers, Industrial containers, Chemical Drums, Heavy Duty Plastic Pallets, Processing Trolleys, Dust Bins and many more .

Our products have been used in various applications domestic, commercial, Industrial, warehouse & manufacturing.

What defines us?

Our Core Values

Our Certifications

History

2021

- New Blow Molding Machine and New Set of Mold received.
- Started New Products

- Added New Blow Molding Machine (New Technology). First in South INDIA.
- Started a new facility in Bangalore for High/mass Output with sophisticated and New / Latest Technology machines and ancillary equipment's to get consistent and high quality products.
- Added New Blow Molding Machine to manufacture better quality and high output products..
- Added New 10,000 Ltrs machine closed oven to save the energy and reduce the carbon footprint.
- Added New Biaxial Machine, by scrapping all the Old / Outdated Machines.
- Added a new Blow Molding machine with upgraded features to get a better product.
- Added another New Biaxial Machine to increase the Production and supply as per the market needs.
- Started another Facility to serve the market.
- Introduced New products in Rotomoulding to service different category of Industries.
- Started Custom Molded Products.
- Late 2020`s we started to make specialised custom molded products.

2011 - 2020

2001 - 2010

- Expanded and started a new facility inside the premises with the latest technology machines.
- Added New Roto Moulded Products.
- Added 10,000 Ltrs tank. First in South India.
- Added 15,000 & 20,000 Ltrs tank. First in South India and 3rd in India.
- Added New upgraded Biaxial Machine only for a specific need.
- Started Exporting Rotomoulded Water Storage Tanks.
- Purchased(Another Word) a running company in Bangalore, to Expand and serve the Market.
- Introduced Rotomoulded products for Industrial Purpose. Non-Water Tank Products.
- Revised standard of ISO 9001 : 2000 we got in 2004
- ISI Mark License we got in 2007

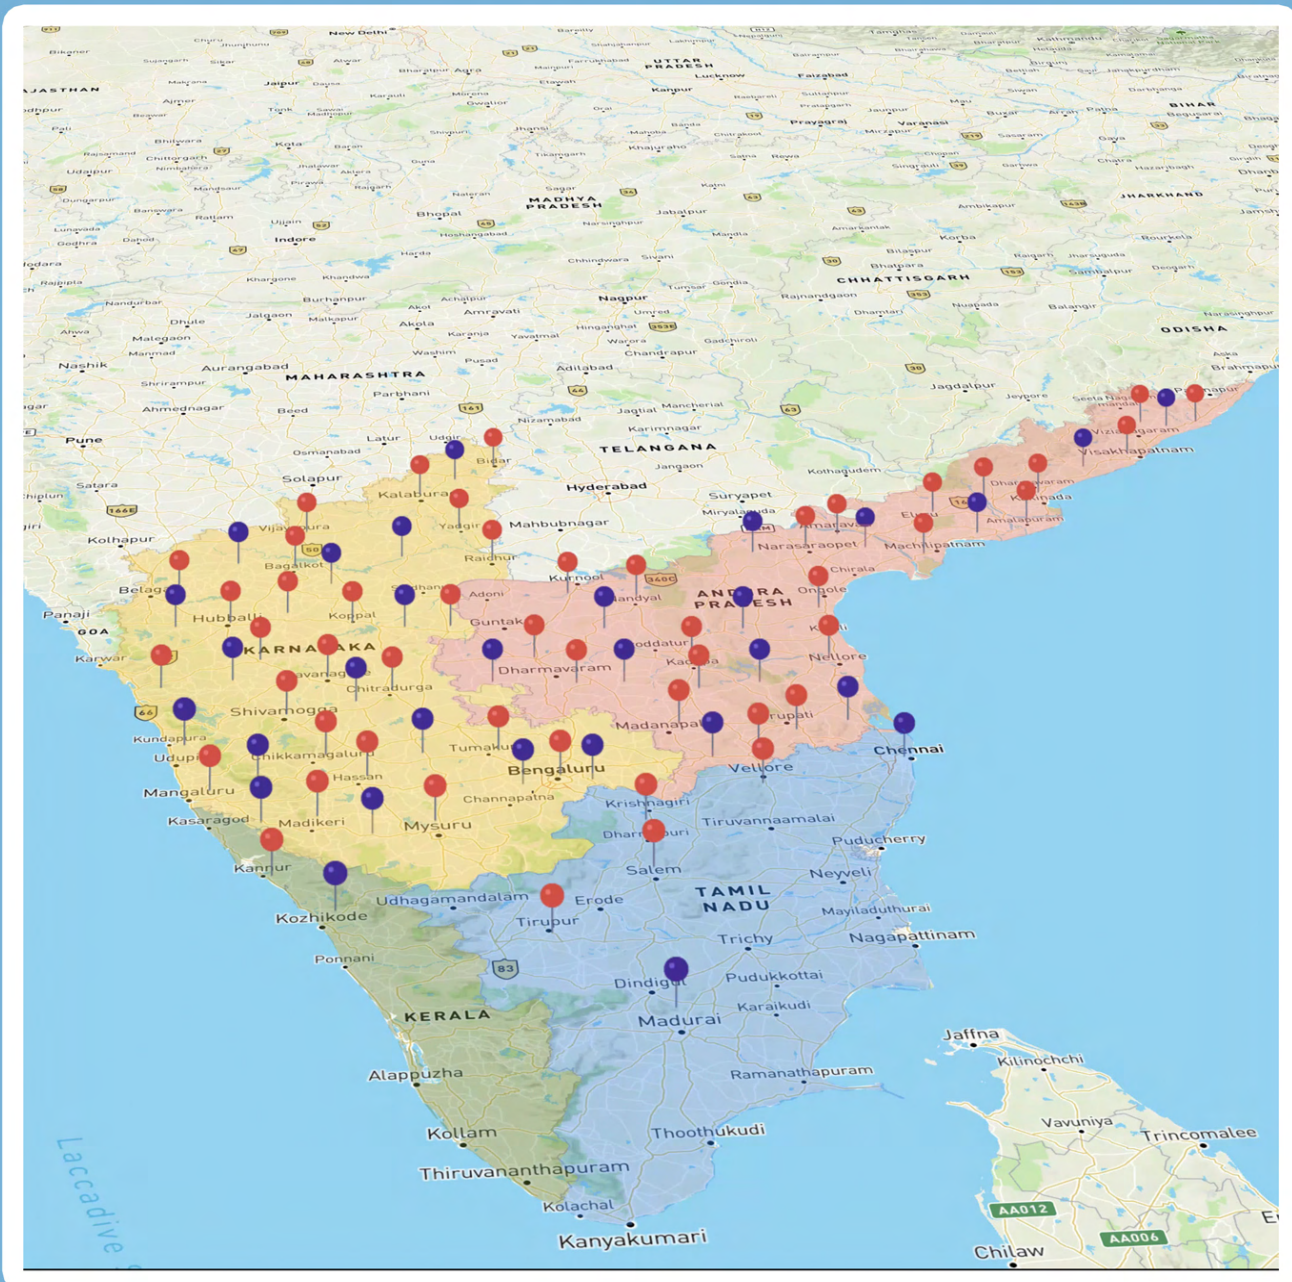

1989 - 2000

- Started Manufacturing Facility in Jigani, Bangalore. Introduced KAVERI Brand Water Storage Tanks.
- Added New Machine to service the required market needs.
- Converted all machines from HSD to LPG to reduce the carbon footprint and increase the fuel consumption efficiency.
- Added New Technology Biaxial Machine.
- We adopted ISO Certification and were certified for ISO 9002:1996
- 1999 Kaveri was registered as Trademark.
- Expanded our Market area and started catering to neighbouring states in Late 90's.
- Improved the Product and upgraded the process based on customer feedback from time to time.
- Periodically we have adopted new and upgraded our working style / technology to service our customers in a better way.

Pioneers In Technology

Our Presence

KAVERI LARGE TANKS

KAVERI LARGE TANKS

Water Tank With Complete Peace of Mind

Double layer cylindrical vertical water Storage tanks are made of food-grade Polyethylene making them ideal water storage tanks. A perfect tank to withstand Indian weather conditions.

ATTRIBUTES

Light Weight

Strong & Durable

Sustain Natural Weather Conditions

Maintenance Free

100% Virgin Grade

BENEFITS

1st White Inner Layer – Safe to store drinking water.

2nd Black Outer Layer – UV Safe - Stabilized to mitigate harmful effects of sun rays. (Safe and Stable for longer Durability)

AREA OF APPLICATION

- Infrastructure Projects (Residential/Commercial)
- Rain Water Harvesting
- Hotels, Malls, Villa Scheme, Resorts
- Medium to Heavy Rain regions to be self-sufficient
- Fire Protection
- Large water Consumption Units like:
 - i. Aqua Culture
 - ii. Vineyards
 - iii. Aerated Water, etc.
- Bulk Storage, Potable Water Storage
- Irrigation, Agriculture
- Storm Water management
- Mining

TECHINCAL SPECIFICATION

KAVERI FOUR LAYER

KAVERI 4 LAYER TANK AN ANTI-MICROBIAL TANK

Best in Sustainability, Durability, Purity & Safety

ATTRIBUTES

ISO

Anti Bacterial

100% Virgin Material

Anti Algae

FDA Approved

Bigger Manhole

UV Outer Layer

Lid with black inner

BENEFITS

- Uniform Wall Thickness
- Lighter in Weight than RCC Tanks
- Odorless
- Corrosion Resistant
- Heavy Duty Tank
- Strong Threaded Lid

ULTIMATE PROTECTION OF FOUR LAYER

1st White Outer Layer – Reduces temperature transfer to the inner layer

2nd Black Layer – Gives additional strength to tank with UV rays protection

3rd Red Layer – Special layer for enhancing the durability of the tank

4th Blue Layer – Light base color with swimming pool clarity for clear visibility with antimicrobial protection

TECHINCAL SPECIFICATION

Sl.No	Capacity (In Liters)	Product Code	Diameter (Inches)	Height (Inches)	Manhole ID (Inches)	Inlet (Inches)	Outlet (Inches)	Overflow (Inches)

KAVERI NEU

KAVERI NEU

Kaveri NeU 3 Layer Anti-Microbial Tank

Kaveri NeU water storage tank prevents the growth of Bacteria, Virus, Fungi & algae, leading to unwanted odours and stains. The multilayer threaded lid maintains safety and hygiene, and the durability of the lid is also very high.

ATTRIBUTES

100% Virgin Material

FDA Approved

UV Outer Layer

Lid with black inner

Anti Bacterial

Anti Algae

Bigger Manhole

BENEFITS

- Longevity
- Odourless
- Easy Installation
- Lighter in weight than RCC Tanks
- Uniform Wall Thickness
- Corrosion Resistant

3 LAYERS OF PROTECTION

1st Outer Layer:

UV resistant layer for protecting water and making the tank durable, enabling a longer life.

2nd Intermediate Black Layer

Acts as a barrier for the sunlight to penetrate, preventing microbial growth/activity.

3rd Inner White Layer

Anti-Microbial Layer with Silver Nanoparticle Coating, safeguarding water from microbes.

KAVERI CHEMICAL STORAGE TANK

CHEMICAL STORAGE TANKS

Store Chemicals With Safety

Made out of specially chosen grades of the virgin polymer under natural atmosphere by adhering to stringent quality standards to ensure a best-in-class and durable product. With a seamless design, Kaveri chemical tanks are high on strength with industry-wide application - chemical processing, pharma, food processing, animal nutrition, garments, etc.

ATTRIBUTES

Resistant to most of the alkaline, acids,, food pulp, etc

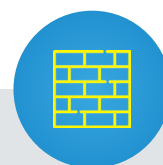

Corrosion Resistant

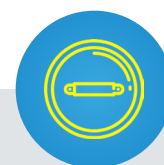

Highly Durable and Cost-Effective

Homogenous and strong construction

Uniform Wall Thickness

Made from special industrial grades of polyethylene

BENEFITS

- Resistant to most of the alkaline, acids, food pulp, etc.
- Corrosion Resistant
- Highly Durable and Cost-Effective
- Homogenous and strong construction
- Uniform Wall Thickness
- Made from special industrial grades of polyethylene

AVAILABLE COLORS

- UV resistant black color for outdoor and indoor application
- Natural color for indoor application
